Structural Pest Control Advisory Committee Self-Assessment Questionnaire Calendar Year 2020

The Structural Pest Control Advisory Committee has the responsibility to:

- a. gather and provide information to the Commissioner of Agriculture regarding the practice of structural pest control in order to assist the Commissioner of Agriculture and the department in providing excellent customer service to the public and the structural pest control industry;
- b. enhance educational and professional standards of license holders; and
- c. protect the health, safety and welfare of the public.
- 1. In reviewing the committee's body of work for 2020, what do you feel were the major accomplishments of the committee?
- 2. In considering your responsibility as a member of the committee, and considering the issues of structural pest control that the committee is tasked for providing input, would you find it beneficial to have additional training focused on a better understanding of the law and regulations or practices pertaining to structural pest control? If yes, what type of training would be beneficial to enhance your understanding?

3. What specific types of issues or area of concern related to structural pest control would you like to see addressed going forward?

4. What suggestions do you have on how the committee can or should evaluate its effectiveness?
